
ADVANCED TECHNOLOGY VEHICLES

November 7, 2005

Dear

We hope that you are enjoying the use of the GM EV1 for educational purposes and that it is providing a good learning opportunity for your students in automotive technology.

We wanted to remind you that as part of the donation agreement that the university signed, the school and its representatives agreed that:

- It would not sell, give away, donate or in any way transfer ownership of this vehicle or any parts or components therein.
- If you find you no longer can use the vehicle and/or its components, the school will scrap them in an appropriate and environmental manner, and/or contact GM for assistance in scrapping.
- The school will not attempt to get the vehicle running again as an EV1.
- The school will not attempt to get EV1 parts for the vehicle from GM, a Saturn retailer, or any other source.

We trust that you will continue to abide by this agreement. If you have any questions, please contact me.

Thank you for your continued cooperation.

Sincerely,

EV-Program-Manager
